SMTP send: **OK**

Sender gaurav@webterse.com

Recipient gauravch67@gmail.com

## Test IMAP config

Server localhost ▼

Port 143

Username

Password

After completing the installation and the final tests please **remove** the whole installer folder from the document root of the webserver or make sure that `enable_installer` option in `config.inc.php` is disabled.

These files may expose sensitive configuration data like server passwords and encryption keys to the public. Make sure you cannot access this installer from your browser.
